A.B.N. 17 081 316 994 / A.C.N. 081 316 994

APPLICATION FOR FOAL RECORDING – under 2 years

Applications for adult, permanent or temporary registration – use Application for Registration Form

Foal recording is mandatory for:

- **ALL COLTS, REGARDLESS OF PARENTAGE, COLOUR & REGISTER**
- **ALL PALOMINOS**
- **ALL HORSES WITH UNKNOWN OR UNPROVEN PARENTAGE REGARDLESS OF COLOUR & REGISTER**
- **ALL HORSES WITH ROAN, APPALOOSA or PALOUSE PARENTAGE** Horses / ponies with appaloosa / Palouse parentage will be issued with a temporary registration at 2 years of age & will be required to be reinspected after 4 years of age to ensure they are still free of characteristics.

DNA TESTING

- **All DNA results will be recorded on registration certificates.**
- All horses with **unknown parentage** are required to be DNA tested for all currently available coat colour pattern genes (OLWS, tobiano etc) before they will be eligible for registration.
- All **cremellos & perlinos with unknown parentage** are additionally required to be DNA'd for **grey** and **roan** and must return a negative result to be eligible for registration.
- All **cremellos & perlinos with grey or roan parentage** are required to be DNA'd for grey and/or roan as applicable and must return a negative result to be eligible for registration.
- Any horse with **combination dilute parentage** (ie cream / silver) may be required to be DNA tested for all dilutions carried by the parents to determine correct genetic colouring UNLESS one parent is a proven homozygote for a particular dilution.
- Solid dilutes with **registered paint / pinto parentage** that return a **NEGATIVE** DNA test for **OLWS** (lethal white) and **tobiano** will be accepted for studbook registration. Solid dilutes with paint / pinto parentage found to be carrying OLWS and/or tobiano OR for which no DNA testing is done will only be eligible for non-studbook registration.
- All horses being presented for registration as **black or brown buckskins** are required to undergo DNA testing for the Cream factor UNLESS it can be PROVEN by parentage or progeny that they carry cream ie double dilute parent, double dilute offspring or single dilute offspring from a PROVEN NON-DILUTE partner. They may also be required to be DNA'd for agouti to determine black or brown base colour.
- Horses being presented for **dun** registration that exhibit primitive markings which in the opinion of the registrar are not consistent with those found on true genetic duns will be required to undergo a dun zygosity DNA test.
- Horses being presented for **silver** registration may be required to undergo DNA testing for agouti (to determine black or brown base colour), red factor (to determine chestnut or bay base colour) or silver at the discretion of the registrar.
- Horses being presented for **palomino** registration which have a silver parent will be required to be DNA tested for silver and if a positive test is returned, they will be registered as silvers and not as palominos.

PALOMINOS:

All palominos will be foal recorded up until the age of 2 years, at which time they will require classification for adult registration by accredited company classifiers.

Palominos carrying an Ancillary Registration will not be eligible for permanent Ancillary Registration until 2 years of age. These Ancillaries are Foal Recorded and Adult Registered by classification.

ANCILLARY REGISTERS:

Dilutes eligible for Ancillary registration are subject to the appropriate regulations pertaining to their dilute registration.

Non-dilutes eligible for Ancillary registration may be EITHER Foal Recorded up until 2 years of age OR permanently registered from birth, in which case you require the **Application for Registration form**.

REQUIRED PAPERWORK - ALL REGISTERS:

- **COLOUR PHOTOGRAPH**
- **PROOF OF BREEDING** FOR KNOWN PARENTAGE (service certificate, copy of other breed rego certificate).
- **PROOF OF OWNERSHIP** IF YOU ARE NOT THE BREEDER (copy of other breed rego certificate showing horse in your name, copy of authorised transfer, copy of receipt, statutory declaration)

Notwithstanding the above, any non-dilute Ancillary that exhibits signs of appaloosa, Palouse, paint or pinto coat colouration will not be eligible for registration.

CHECK LIST

Before lodging this form have you:

Correctly completed the forms

Supplied ALL information required

Completed a membership application if you are NOT a member of Dilutes Australia OR

Completed a membership renewal application if you are an UNFINANCIAL member of Dilutes Australia

If horse is **microchipped**, provided a copy the microchip certificate OR if horse is **NOT BRANDED** provided a copy of another breed society registration certificate verifying **prior** unbranded registration

PROOF OF PARENTAGE / PEDIGREE:

Included at least **ONE** of the following documents:

Copy of service certificate or similar

Copy of other breed society registration

Statutory Declaration

Please note that failure to provide verification of pedigree / parentage will result in your horse or pony being NON-STUDBOOK registered & it's pedigree listed as being 'NA'.

VERIFICATION OF COLOUR:

Included the following items / documents:

Colour Photograph

Copy of DNA results where required

PROOF OF LEGAL OWNERSHIP:

Included **ONE** of the following documents if you are NOT the breeder:

Copy of other breed society registration showing horse in your name

Copy of other breed society signed transfer – must be signed by the owner listed on the rego certificate

Copy of receipt signed by the seller

Statutory declaration stating you are the legal owner of the horse

Copy of signed lease agreement or letter from the legal owner if you are in the process of paying off the horse OR if you have an official lease agreement

PAYMENT:

Included a cheque, money order or copy of online deposit transaction for the CORRECT amount

Failure to provide any of the above will result in delays to the processing of your registration.

DA –Foil Recording Application.

Copyright: reprinting or reproduction of this form other than for the purposes of registering a horse or pony with DA is strictly prohibited.

OWNER'S DECLARATION

If this horse is a Quarter horse or of Quarter horse breeding, has s/he been required by the AQHA or another breed society to undergo DNA testing for HYPP? YES NO (Please circle correct answer)

I declare that all particulars given in this application are correct to the best of my knowledge.

I declare that the horse described on this application conforms with the Company's regulations regarding HYPP and white markings and that the markings as shown on the accompanying diagrams are correct.

I further understand that if, for whatever reason, this horse is subsequently found not to conform with the Company's regulations on HYPP and white markings, it will automatically be de-registered.
